MEMORANDUM FOR DIRECTOR OF 

SUBJECT: Development of E and E Areas

1. In their efforts to eliminate duplication and confine the number of evasion and escape areas to the minimum, SAC intelligence personnel have determined that a requirement exists for the relocation of some of the existing areas in order to provide safety from fallout.

2. Inclosure 1 lists the center coordinates of general areas designated by SAC that are desirable as new evasion and escape areas. It is requested that your office research these general areas using the same criteria used for the Feasibility Studies previously published by your office and designate and publish for joint usage any evasion and escape areas that are developed.
